

BIOPOD® LATEST ISSUED HEARABLE TECHNOLOGY PATENTS TO IMPACT \$72B IOMT MARKETS

LOS ANGELES, CALIFORNIA, USA, March 27, 2018 /EINPresswire.com/ -- Meramark Ventures announces latest additions to growing Hearables Technology IP with USPTO publication of [USPTO Patent # 9,782,084](#) (Issued October 10, 2017), and BioPod® Divisional Application and Claims published by the USPTO January 11, 2018.

BioPod® Technology's latest issued patents add unique extended capabilities to BioPod's already rich feature set. With wireless two-way (and multiple channel) communications, remote monitoring and of patients' vital signs and additional related data including GPS location and audio and haptic feedback to enhance response quality and time, medical professionals are now able to

communicate in real-time with in-home patients and other authorized contacts which may include: Primary Care Physicians, Specialized Medicine, EMS Professionals, Emergency Room Facilities, Internal and External Lab and Testing Facilities, Support Staff, Physical Therapy Providers, LifeFlight and EVAC, and key family members within a BioPod® created, CareUniverse™ Network, providing state-of-the-art, connected care. The Benefits of BioPod® Technology for the [IoMT](#) include: better care, faster response, lower medical costs and improved data collection and monitoring.

“

One of the chief concerns that face families today is being able to be able to check the health of family members.

”

Richard J. Maertz
